

MAKE YOUR OWN ORNAMENT!

You'll need:
 scissors * one piece of string * crayons or markers for coloring * glue

First, color your ornament. Then cut it out or ask an adult to cut it out for you. Make all the folds on the ornament to get it ready before adding glue. Fold the tabs away from the pictures.

Once you have made the folds, add glue to all of the tabs. To create the ornament, press the tabs with glue onto the inside of the ornament. Before you fold in the final piece, take a three-inch piece of string and fold it in half. Stick the cut ends of the string inside the ornament, then close the final piece over them. This will form the loop that allows you to hang your ornament.
